How to use this book

Preface

Chapter one. Ethics: Preliminary Theories

I. The normative universe

II. Is morality just acting on principles?

III. Divine Command Theory (Is morality just what God tells me to do?)

IV. Egoism (Is morality just my own personal code?)

A. psychological and ethical egoism

B. objections

a. horrible consequences

b. subjectivity

c. equal treatment

V. Moral relativism (Is morality just how society says we should act?)

A. descriptive and moral relativism

B. criticism objection

VI. Annotated bibliography

Chapter two. Ethics: The Big Three Theories

I. Utilitarianism (Is morality doing what I can to make this the best world possible?)

A. consequentialism and hedonism

B. measuring pains and pleasures

C. quality and quantity

D. objections

a. practicality

b. invasiveness

c. supererogation

d. Simpson's paradox

e. agent-relative intuitions

f. nothing is absolutely wrong

II. Deontology, or Kantianism (Is there an absolute moral law?)

A. imperatives and good motives

B. categorical imperative, version 1

a. ways a principle of action can violate the categorical imperative

- i. inconsistency
 - ii. inconsistent willing
 - C. categorical imperative, version 2
 - D. objections
 - a. generality
 - b. agent-neutral intuitions
 - c. horrible consequences
- III. Virtue Ethics (Is morality all about having a virtuous character?)
 - A. what is virtue?
 - B. what is character?
 - C. objections
 - a. virtue is compatible with evil
 - b. clashing virtues
 - c. relativism about virtues
 - d. there is no such thing as character
- IV. Conclusion
- V. Annotated bibliography

Chapter three. God

- I. Faith
 - A. confidence
 - B. belief without reason
- II. The attributes of God
- III. Why there is a God
 - A. argument from scripture
 - B. ontological argument
 - a. presentation of the argument
 - b. objections
 - i. the fool's response
 - ii. reverse parody
 - iii. existence is not a property
 - C. cosmological argument
 - a. presentation of the argument
 - b. objections
 - i. inconsistency
 - ii. problem of the attributes
 - iii. alternative scientific explanations
 - D. Teleological argument or the argument from design
 - a. presentation of the argument
 - b. objections
 - i. weaknesses in the watch analogy
 - ii. alternative scientific explanations
 - iii. problem of the attributes
 - iv. problem of uniqueness
 - v. explaining the complexity of God
 - E. Pascal's Wager

- a. presentation of the argument
- b. objections
 - i. unforced wagering
 - ii. the odds of God
 - iii. assumes loads of Christian theology without argument
 - iv. the value of your life
 - v. an alternate ending
 - vi. problem of other Gods
 - vii. involuntarism of belief and self-deception

IV. Why there is no God

- A. proving a negative
- B. argument from religious pluralism
 - a. objection from scientific analogy
 - b. response
- C. problem of evil
 - a. presentation of argument
 - b. objections
 - i. just give up an attribute
 - ii. it's all part of God's greater plan
 - iii. free will
 - 1. presentation of argument
 - 2. responses
 - a. moral vs. natural evil
 - b. what's the value of free will?
 - c. the irresponsible owner
 - d. why doesn't God intervene?

V. Conclusion

VI. Annotated bibliography

Chapter four. Freedom

I. Definition of free will

II. Why there is no free will, part 1: divine foreknowledge

- A. presentation of the argument
- B. objections
 - a. atheism and agnosticism
 - b. Aristotle's answer

III. Why there is no free will, part 2: a regress of reasons for acting

- A. previous decisions vs. outside forces
- B. the argument against free will
- C. the digger wasp

IV. Why there is no free will, part 3: the dilemma argument

- A. the threat of determinism
- B. will randomness make us free?
- C. the dilemma argument against free will
- D. free will and moral responsibility
- E. agent causation

- a. objections
 - i. mystery
 - ii. magic
 - F. compatibilism
 - a. objections
 - i. too little freedom
 - ii. too much freedom
- V. The feeling of freedom
- VI. Conclusion
- VII. Annotated bibliography

Chapter five. Self

- I. The problem of difference and the problem of sameness
- II. Preliminary positions
 - A. the luz bone
 - B. fingerprints
 - C. DNA
- III. The soul criterion
 - A. conceptions of the soul
 - a. soul = mind
 - b. soul = ghost
 - c. soul = vitalist force
 - d. soul = supernatural stuff
 - B. objections
 - a. definition
 - b. evidence
 - c. identification
- IV. The physicalist criterion
 - A. Abigail—the case of ordinary aging
 - B. closest physical continuer relation
 - a. causation
 - b. similarity
 - C. Kenny—the case of loss
 - D. brain transplants
- V. The psychological criterion
 - A. closest psychological continuer relation
 - a. the memory interpretation
 - i. objections
 - 1. sleep
 - 2. brave officer paradox
 - 3. circularity
 - b. broader psychological connections
 - i. severe psychological disruption
 - 1. the case of Clive Wearing
 - 2. the case of Phineas Gage
- VI. The bundle theory

- A. split-brain surgery
- B. Buddha and Hume
- C. The Sex Pistols

V. Conclusion

VI. Annotated bibliography

Chapter six. Mind

I. The rare and mysterious mind

II. First theory of the mind: substance dualism

- A. physical and mental substances
- B. Descartes's conceivability argument for dualism
- C. objections
 - a. conceivability and possibility
 - b. the mind-body problem
 - c. other minds

III. Second theory of the mind: behaviorism

- A. explanation of the theory
- B. objection: mental states without behavior
 - a. saying and asserting
 - b. dispositions

IV. Third theory of the mind: mind-brain identity theory

- A. explanation of the theory
- B. objections
 - a. the subjectivity of experience
 - i. different pathways to the same facts response
 - 1. knowledge argument rejoinder
 - b. multiple realizability

V. Fourth theory of the mind: functionalism

- A. explanation of the theory
 - a. the mind as software
 - b. the Turing Test
- B. objections
 - a. emotions, feelings, and sensations
 - i. replies
 - 1. emotionless human beings
 - 2. the evidence for emotions is behavioral
 - b. creativity
 - i. reply: Deep Blue, Experiments in Musical Intelligence, Watson
 - c. the Chinese room

VI. Conclusion

VII. Annotated bibliography

Chapter seven. Knowledge

I. The value of truth

- A. the rational principle
- B. the hedonist's challenge

- a. the hedonist's principle
 - b. intrinsic and instrumental value
- II. The value of evidence
 - A. fraud and quackery
 - B. ways we can go wrong
- III. How much evidence do we need?
 - A. part 1: we need a lot
 - a. Clifford's dictum
 - b. parable of the shipowner
 - B. part 2: go on, take a chance
 - a. options with mixed evidence
 - b. the risk averse and risk positive principles
 - i. truth and error version
 - ii. pain and pleasure version
 - iii. guilt and innocence version
 - c. surprising results
 - i. evidence against P = evidence for not-P
 - ii. case of zero evidence
- IV. Sources of evidence
 - A. perception, testimony, memory, reason
 - B. empiricism
 - a. criticisms
 - i. knowledge not grounded in experience
 - ii. a priori knowledge
- V. The nature of knowledge
 - A. analysis of knowledge, first attempt
 - a. problem of luck
 - B. analysis of knowledge, second attempt
 - a. problem of luck redux
- VI. The skeptic's challenge
 - A. modest skepticism and radical skepticism
 - B. dreamers, demons, and movies
 - a. dream argument
 - b. the Demon
 - c. The Matrix
 - C. the theater of the mind
 - a. metaphysical and epistemic principles
 - b. skeptic's argument
 - c. what can we know anyway?
 - 1. cogito ergo sum
 - 2. phenomenal states
 - 3. intentional states
 - d. Moore's response
- VII. The counterfeit detector
 - A. genuine and counterfeit money
 - B. particularism and methodism

C. problem of the circle

a. for money

b. for beliefs

D. the wheel

VIII. Annotated bibliography
