

Professional Experience Grant Learning Goals: For your learning goals essay, please pick three learning goals from the list below. For the goals you choose, discuss how each of them will apply to your professional experience. The questions provided for each learning goal should help you brainstorm ideas for your response; simply answering these questions will not generate a thoughtful essay. As you develop your learning goals essay, you should also describe your experience, how you will use the grant (be specific), and what you anticipate learning through the experience. Your essay should be 500-1,000 words in length, with the following formatting elements: Times New Roman Font, 12 point type, and double spaced. Each page should be numbered and include your name and student ID number.
